

LETTER OF APPRECIATION

I really appreciate the opportunity that torque-it has given me, and I appreciate the fact that they have chosen me as one of their student. When I first come to torque-it I didn't know anything about computers and I didn't have any idea what it was all about but because we had good lectures, they did their job quite very well. The one thing that I am grateful about is the chance of being counseled it made me know what do I intend to do in life and realize the purpose of being given the opportunity to learn.

At this moment I am not working, reason being I haven't got a good company that IT can recruit a person who hasn't been in a workplace before, but I'm very grateful for all the knowledge you have given me. Not everyone get a chance like these and I'm hoping to come back and upgrade my skills, you really gave us a good reputation.
